Professional Summary

Full-Stack Developer with 1+ year of professional experience in building scalable web applications, backend systems, APIs, cloud deployments, and intelligent systems. Strong in backend architecture, frontend integration, DevOps workflows, and system design. Experienced in implementing production-ready business logic, authentication systems, data pipelines, and AI/ML-powered features. Solid foundation in Data Structures & Algorithms (DSA) and problem-solving.

Technical Skills

- Languages: Python, SQL, JavaScript, Machine Learning & AI: Scikit-learn, Pandas, NumPy, Classification, Regression, Feature Engineering,
- Cross-Validation, NLP, Transformers, AI Agents, Automation Systems
- Data Visualization: Matplotlib, Seaborn, Power BI, Tableau, Streamlit, Excel
- Backend & APIs: FastAPI, Node.js, REST APIs, JWT Authentication
- Databases: MongoDB, MySQL, PostgreSQL
- Cloud & Tools: AWS (EC2, S3), Docker (basic), Git, CI/CD fundamentals

Experience

- Optimum Research Solutions Jaipur, India
Data Scientist & Full Stack Developer Oct 2024 – Present
 - Machine Learning: Built and evaluated supervised ML models for prediction, analytics, and decision-support systems
 - AI Agents : Developed AI agents to automate data analysis, reporting, and workflow orchestration
 - Automation : Designed end-to-end automated pipelines for data ingestion, cleaning, feature engineering, and reporting
 - Analytics : Analyzed IFRS panel data for 50+ multinational corporations using Python and SQL
 - Dashboards: Built Power BI and Streamlit dashboards for 50+ clients, reducing reporting time by 40%
 - Full Stack : Developed backend services and REST APIs using Node.js and MongoDB

Projects

- Real-Time eCommerce Churn Early Warning System
Python, Scikit-learn, Streamlit
 - ML Model: Built Random Forest classification model achieving 87% accuracy
 - Deployment: Developed real-time dashboard for churn risk visualization
- Learning Management System (LMS)
Python, Node.js, React, TypeScript
 - System Design: Developed a full-stack LMS with role-based access for Admin, Instructor, and Student
 - Automation : Automated course management, enrollment workflows, and authentication using JWT
- AI SEO Article Generator
Python, NLP, AI Automation
 - GenAI : Built an AI-based system to generate SEO-optimized articles using NLP techniques
 - Automation : Automated content generation and publishing workflows
- Text Transformer (NLP Project)
Python, NLP, Transformers
 - NLP : Implemented transformer-based text processing and evaluation pipelines
- Weather Analytics Platform
Python, Data Analytics
 - Analytics: Analyzed historical weather data and visualized trends using Python

Education

- SSG Pareek College
Bachelor of Computer Applications (BCA) – Computer Science
- Jaipur, India
2021 – 2024

Certifications

- Oracle Cloud Infrastructure Professional Data Scientist (2025)
- Oracle Cloud Infrastructure AI Associate (2025)
- Machine Learning – Columbia+ University (2025)

Achievements

- International Gold Medalist – Karate Championship (2023)
- National Gold Medalist – Karate Championship (2022)
